04+ LIVE PRODUCTION CLOUD PLATFORMS	150+ ALGORITHMIC PROBLEMS SOLVED	7.8 B.TECH CGPA AKTU UNIVERSITY	90h RELIANCE & NSDC PYTHON CERTIFIED

// TECH MATRIX

CORE LANGUAGES
Python | JavaScript (ES6+) | SQL | C | HTML5 / CSS3

BACKEND & FRAMEWORKS
Flask 3.x | RESTful APIs | Jinja2 | Chart.js | Tailwind CSS | Bootstrap 5

DATABASES & ORM
PostgreSQL | Neon Cloud DB | SQLAlchemy 2.0 | SQLite

AI, CLOUD & DEVOPS
Gemini Vision AI | Vercel Serverless | Render Cloud | Git / GitHub | Linux / Bash | Postman

// COMPETENCIES

- Full-Stack Web Architecture
- Multimodal AI Vision Integration
- Relational Schema & ACID Logging
- Serverless Microservice Design
- High-Performance Responsive UX

// EDUCATION

B.Tech in Computer Science & Engg
G.L. Bajaj Group of Institutions, Mathura
AKTU • 2022 – 2026 • CGPA: 7.8 / 10
Coursework: OS, DBMS, OOP, DSA, Networks

Intermediate (Class XII) • PCM
Brightland School, Lucknow (CBSE)
Score: 78% • 2024

High School (Class X)
Brightland School, Lucknow (CBSE)
Score: 82% • 2022

// CREDENTIALS

- **Python Programming** • Reliance & NSDC (90h)
- **Cisco CyberSecurity & AI** • Learn-a-Thon
- **Upskilling in Python** • IoT Academy
- **Problem Solving** • HackerRank Verified

// LIVE LAUNCHPAD

PORTFOLIO ↗ | CIVICCONNECT ↗
INVENTRA ↗ | WHATSAPP ↗

// SYSTEM MANIFEST // SUMMARY

Forward-thinking **Computer Science Engineer & Full-Stack Developer** specializing in resilient backend architectures, transactional database systems, and AI-integrated workflows. Proven track record deploying **production applications to Render and Vercel** featuring multi-tenant authorization, **Google Gemini Multimodal Vision AI pipelines**, real-time telemetry, and serverless compute. Dedicated to high-velocity development and scalable, user-centric systems.

// PRODUCTION DEPLOYMENTS & PROJECTS

CIVICCONNECT — AI VISION • GOVTECH

LIVE APP ↗ | CODE ↗

Flask 3.x • Google Gemini Multimodal Vision AI • PostgreSQL • Leaflet GPS • Cloudinary

- **Architected full-lifecycle civic governance platform** supporting automated role-based triage workflows across Citizens, NGOs, and Municipal Authorities.
- **Integrated Gemini Vision Multimodal AI** to analyze uploaded defect imagery, auto-detect infrastructure failures (potholes, garbage, water leaks), and compute severity.
- **Engineered Haversine geospatial proximity clustering (300m radius)** to merge duplicate reports, reducing municipal processing backlog by 40%.
- **Implemented photographic resolution audit engine** comparing before/after repair imagery before authorizing ticket resolution.

INVENTRA — CLOUD ERP • SERVERLESS

LIVE APP ↗ | CODE ↗

Flask • SQLAlchemy 2.0 • Neon PostgreSQL • Chart.js • Vercel Serverless WSGI

- **Engineered production warehouse inventory system** with real-time stock monitoring, automated low-inventory reorder alerts, and supplier directories.
- **Built ACID-compliant relational audit ledger** recording immutable delta history for every inventory adjustment with database transaction safety.
- **Designed Chart.js analytics engine** visualizing warehouse asset valuation, monthly stock deltas, and automated CSV export pipelines.
- **Architected zero-configuration serverless deployment on Vercel** with Neon cloud PostgreSQL connection pooling.

MYRAIL — HIGH-CONCURRENCY API

CODE ↗

JavaScript (ES6+) • RapidAPI • Railway REST APIs • Asynchronous Fetch • Bootstrap 5

- **Engineered live railway utility web application** delivering real-time PNR confirmation status, live train tracking, and station autocomplete lookups.
- **Implemented asynchronous API caching and error boundary layer** ensuring sub-second responses and resilience against external rate limits.

AMANZON — E-COMMERCE UI

CODE ↗

HTML5 • CSS3 (Modern Flexbox & Grid) • JavaScript (ES6+) • LocalStorage State Engine

- **Developed responsive multi-page e-commerce storefront** featuring dynamic product catalog filtering, interactive cart state, and modal checkout.
- **Optimized cross-browser rendering pipeline** ensuring 100% responsive fidelity across mobile, tablet, and desktop viewports.

// WORK EXPERIENCE

Web Development Intern — 3 Skills India — July 2024 – Aug 2024 // Remote

- Modernized frontend web architectures with semantic HTML5, CSS3, and JavaScript, reducing mobile layout shifts.
- Collaborated with senior engineers on sprint velocity, code reviews, and cross-browser accessibility standards.

// ENGINEERING HIGHLIGHTS & HONORS

- **Cloud Deployments:** Architected and maintain 4 live full-stack applications with 99.9% uptime across Vercel and Render.
- **Competitive Problem Solving:** Solved 150+ Data Structures & Algorithms challenges across LeetCode & HackerRank.
- **Smart India Hackathon (SIH) Internal:** Conceptualized and prototyped AI-driven civic issue dispatch engine.
