Mathura & Lucknow, Uttar Pradesh, India

PROFESSIONAL OBJECTIVE

Proactive **B.Tech Computer Science Engineering student** at G.L. Bajaj Group of Institutions with hands-on expertise building production web platforms, transactional database architectures, and AI-integrated workflows. Proven track record deploying live, full-stack cloud applications (**CivicConnect**, **Inventra**) with automated triage, RESTful APIs, and responsive interfaces. Dedicated to engineering scalable, high-impact software solutions within innovative engineering teams.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering — 2022 – 2026
G.L. Bajaj Group of Institutions, Mathura (AKTU) — CGPA: 7.8 / 10
Core Coursework: Operating Systems, DBMS, OOP, Data Structures & Algorithms, Computer Networks

Intermediate (Class XII) • Science (PCM) — 2024
Brightland School, Lucknow (CBSE) — Score: 78%

High School (Class X) — 2022
Brightland School, Lucknow (CBSE) — Score: 82%

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), SQL, C, HTML5, CSS3

Frameworks & Web: Flask 3.x, Jinja2, RESTful APIs, Chart.js, Bootstrap 5, Tailwind CSS

Databases & ORM: PostgreSQL, Neon DB, SQLite, SQLAlchemy 2.0 (Relational Schemas)

Cloud, AI & DevOps: Gemini Vision AI, Vercel Serverless, Render, Git, GitHub, Linux/Bash

FEATURED PROJECTS

CIVICCONNECT — AI Civic Action & Grievance Platform

Live Demo GitHub

Flask 3.x • Google Gemini Vision AI • PostgreSQL • Leaflet GPS • Cloudinary • Bootstrap 5

- **Architected full-lifecycle civic governance portal** with role-based routing across Citizens, NGOs, and Municipal Authorities.
- **Integrated Google Gemini Multimodal Vision AI** to analyze uploaded complaint photos, auto-detect infrastructure defects (potholes, garbage, water leaks), and compute severity index.
- **Engineered Haversine GPS proximity clustering (300m radius)** to merge duplicate citizen reports, preventing municipal backlog.
- **Implemented photographic resolution audit engine** comparing before/after repair photos before authorizing ticket completion.

INVENTRA — Smart Cloud Inventory & Stock Analytics

Live Demo GitHub

Flask • SQLAlchemy 2.0 • Neon PostgreSQL • Chart.js • Vercel Serverless WSGI

- **Engineered production warehouse inventory system** with real-time stock monitoring, automated low-inventory reorder alerts, and supplier directories.
- **Built ACID-compliant relational audit trails** recording immutable delta history for every inventory transaction (+/- adjustments).
- **Designed interactive Chart.js dashboards** delivering warehouse asset valuation, monthly movement graphs, and dynamic CSV exports.
- **Architected serverless WSGI microservice on Vercel** connected to Neon cloud PostgreSQL with connection pooling.

MYRAIL — Real-Time Indian Railway PNR & Live Train Tracking

GitHub

JavaScript (ES6+) • RapidAPI • Railway REST APIs • Asynchronous Fetch • Bootstrap 5

- **Engineered responsive railway tracker web application** providing real-time PNR status, live train status, and station autocomplete lookups.
- **Implemented asynchronous API caching and error boundary layer** ensuring sub-second response times and high availability.

AMANZON — Responsive Full-Featured E-Commerce Storefront

GitHub

HTML5 • CSS3 (Modern Flexbox & Grid) • JavaScript (ES6+) • LocalStorage State Management

- **Developed responsive multi-page e-commerce storefront** featuring dynamic product catalog filtering, interactive cart state, and modal checkout.
- **Optimized cross-browser rendering pipeline** ensuring 100% responsive fidelity across desktop, tablet, and mobile breakpoints.

WORK EXPERIENCE

Web Development Intern — 3 Skills India — July 2024 – Aug 2024 • Remote

- Modernized frontend web architectures with semantic HTML5, CSS3, and JavaScript, reducing mobile layout shifts.
- Collaborated with senior engineers on sprint velocity, code reviews, and cross-device accessibility optimizations.

CERTIFICATIONS & ACHIEVEMENTS

- **Python Programming** — Reliance Foundation & N.S.D.C. (90h intensive)
- **Smart India Hackathon (SIH) Internal** — AI civic grievance dispatch prototype
- **Cisco CyberSecurity & AI** — AI & Security Learn-a-Thon
- **Algorithmic Problem Solving** — 150+ DSA problems solved (LeetCode & HackerRank)
